

Fall Fudge in 5 Minutes

Ingredients:

1 can (14 ounces) Sweetened Condensed Milk

3 cups semisweet chocolate chips OR fall flavored chocolate chips

1/4 cup of unsalted butter

[Candy Pumpkins and Candy Corn \(aff link\)](#)

Directions:

Dump all ingredients into a microwave safe glass bowl.

Put in microwave for 3 minutes. Be sure to stir ingredients midway.

When fudge is done cooking in microwave, be careful and use hot pads as the mixture will be very hot. Mix ingredients until you get a smooth fudge texture.

Pour mixture into a baking dish. Spray dish with non-stick cooking spray. I use 8x8 (for thick fudge) or 13x9 (for thin fudge).

Smooth out your fudge mixture and place fun fall candies on top.

Put baking dish in refrigerator for 2 hours or until fudge sets.

Cut into squares and serve!
